CLASSIC ES-70

INCI Name:

Sodium Laureth Sulfate

CAS Number:

0068585-34-2

SPECIFICATIONS:

Appearance @ 25°C	Slightly opaque viscous liquid
Actives, wt%:	67.0-71.0
pH (1%):	7.0-9.0
Color, VCS:	1 max.
1,4 Dioxane on 100% AD, ppm	18.0 max
Specific Gravity:	1.1
Density lbs/gal:	9.17

Product available in 55 gallon drums

SUGGESTED APPLICATIONS:

Classic ES-70 is a highly concentrated surfactant for use in toiletries and cosmetics. It is a versatile formulating tool for shampoo concentrates, bath gels, liquid soaps, and beauty bars. It saves storage space and offers economies compared to 30% active materials.
