CLASSIC LO

INCI Name:

Lauramine Oxide

CAS Number:

0001643-20-5

SPECIFICATIONS:

Appearance @ 25°C	Clear liquid
Color, APHA:	100 maximum
Activity, wt%:	28-30
pH (10% aq.):	6.0-8.0
Specific Gravity @ 40°C:	0.982 typical
Density, lbs/gal:	7.86-8.26
Flash point °F	220° minimum

Product available in bulk and 55 gallon drums

SUGGESTED APPLICATIONS:

Classic LO is a bleach stable, low odor Amine Oxide. Foaming properties are stable within a pH range of 5-12. Classic LO provides good viscosity response and foam enhancement for personal care products such as shampoos and shower gels. It is a nonionic surfactant which is compatible with anionic and cationic systems. Because of its foam boosting and viscosity building properties, Classic LO is useful in a variety of products.
